Dear Parents/Carers

Last year, following on from a Parent Focus Meeting, Ewell Grove purchased an online program called 'MyMaths' (Oxford University Press), as we believe it complements our curriculum approach.

Families with children in Year 1 to 5 can now access MyMaths at home using two personalised logins and passwords that will be stuck into your child's reading record book. Please note, the learning and games available on the website can only be accessed using the two level security details.

We will be setting challenges every two weeks (on the same week their written homework is sent home) for your children to try and complete. In addition, there may be ongoing challenges set by the class teacher that do not have a specific time frame so that they can be completed at a pace that suits your child and additional family commitments.

All challenges are automatically marked by the website. We will monitor who and how often MyMaths is being used but feel free to help your child as much or as little as you like.

If your child does not have access to a computer and/or internet at home, we would encourage you to use community facilities such as your local library.

In addition, please find attached a guide and link on how to download MyMaths onto tablets and similar devices as there is not a MyMaths app.

Yours sincerely

Mr Ryan Farrant
Phase and Curriculum Team Leader
