

# Nursery

## Summer 3a

### St George's Day Class Concert

## Geography

We will be looking at the natural environment and thinking about the animals that live in different environments.

## History

We will be exploring the past through stories. Looking at toys, games and clothes in the stories.

## Religious Education

### Celebrations

We will be exploring different types of celebrations.

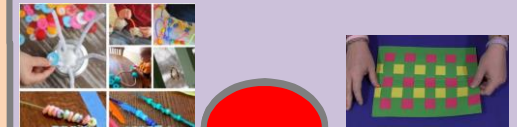

We will be thinking about items that remind us of a special time or celebration?

## Design and Technology

### Threading and Weaving

We will be using our fine motor skills to explore threading and weaving with different materials.

## Computing

We will be finding out where we can get information from. E.g. Using non-fiction books and child safe search engines.

We will also continue to explore online safety watching and discussing the adventures of Smarty the Penguin.

## Mathematics

We will continue to practise recognising, ordering and writing numerals.

We will be exploring different ways to measure objects and looking at the different UK coins.

## English

Exploring Stories with a fantasy theme

## Science

We will be investigating how we can grow a healthy plant?

## PSHE

We will be talking about our communities and the people within them that can help us.

## Physical Education

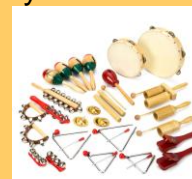

### Athletics

We will be developing our running, jumping and throwing techniques.

## Music

We will practise how to use different percussion instruments correctly, discussing the different sounds that they make.

## Art and Design

We will be developing our observational drawing skills using a range of tools.
